

Stars & Stripes Building Bricks & More 2017 Camp Spotlight

June 26-30, 2017 1:00-4:30pm
July 24-28, 2017 1:00-4:30pm
Aug. 14-18, 2017 1:00-4:30pm

(Ages 5-12yrs.)
Day \$33 Week \$130

Building bricks are one of the very few toys that have been around for generations to enjoy. They allow the mind to create whatever it desires. It allows a child to feel the empowerment of success upon completing their own pirate ship or skyscraper. Is your child a young engineer? Do they enjoy spending hours building with different types of blocks and magnetic connection pieces? If so, then sign them up today for Building Bricks & More Camp. Campers will use their creative imagination and build skyscrapers, vehicles, and other gadgets, using different building and connection supplies. Each day campers will be challenged with new industrial design opportunities. They will also get the opportunity to present their creations with the entire camp. What a fun way to use their imagination and creativity! Bring a bathing suit and towel for water activities on Friday.

Monday: BUILD A CITY What is your favorite place to go when you're in the city? How about looking at the skyscrapers, going to the fire station or to the park? Whatever it is, we are going to build it! Campers can work as individuals or with friends to create their favorite place to be in a city. Once everyone has finished their part of the city we will put the entire city together by using people, cars and animals. We will then use our Matchbox cars to drive through and explore our brand new city.

Tuesday: INTO THE WILD STYLE Time to get really creative as we use our building bricks and other connection pieces to create different animals and wildlife. Campers can build a farm, forest, jungle or zoo along with all of the animals you may find in one of these places. Today is sure to be a hit as the campers also get to play an entertaining game where they are the animals and do a big animal themed obstacle course.

Wednesday: TOMORROWLAND/FUTURE WORLD In the future we hope that there are flying cars and that we can live in space! Today campers will share what inventions they hope the future holds. Once we come up with some cool exciting future ideas and inventions, we will begin building them. Campers will also get the opportunity to play a fun and challenging human robotics game.

Thursday: TRUCKS, TRAINS & PLANES How do you like to travel? By car or by plane? How about by spaceship or by train? Today is all about creating something that moves and transports people or things. Campers can build a speedboat, construction truck, pirate ship, racecar and more. Our campers will also get a very special creator kit to work on at camp and take home. Once we get our transporters built we will race them down the big incline mats to get their speed.

Friday: FAVORITE THEME Today we will discuss the LEGO themes: Castle, DC Comics Superheroes, Disney Princess, Friends, Galaxy Squad Kingdoms, Legends of Chima, Marvel Superheroes, MINDSTORMS, Minecraft, Mixels, Ninjago, Star Wars, Teenage Mutant Ninja Turtles, The Hobbit, The LEGO Movie and The Lord of the Rings. Which one is your favorite? Today is all about creating a character and/or scene from your favorite LEGO theme. Campers will get the opportunity to share his/her favorites, create and build them, and explore the other campers' favorites. Today is sure to be filled with tons of excitement including outdoor water fun with our inflatable water slide. Be sure to bring your bathing suit, towel and apply sunscreen today!!
