for days and times.

Go on a Discovering Dinosaurs adventure! Going back to prehistoric times, campers will learn some cool facts about all types of different dinosaurs while having FUN! Our junior paleontologists will participate in a fossil excavation, hatching dinosaur eggs, making their own dinosaur fossils, and so much more! There will also be plenty of time for some dino crafts and games, such as Dinosaur Freeze Tag and Hatch the Dinosaur. If you dig dinosaurs then this is the camp for you! Bring a bathing suit and towel for water activities on Friday.

Monday: Dino of the Day is the Velociraptor We will start our morning learning about dinosaurs with a focus on the velociraptor. Campers will start their dinosaur book that they will be making throughout the week. They will also become paleontologists and learn the tools of the trade. Our first site will be excavating dinosaurs from beans. We also have some fun games planned such as Dinosaur Freeze Tag and Dinosaur Egg Hatch. Campers will also start making their very own dinosaur fossil!

Tuesday: Dino of the Day is the Tyrannosaurus Rex Campers will be taking a look at the amazing wonders of the tyrannosaurus rex. They will add the tyrannosaurus rex to their dinosaur book that they will be making throughout the week. We will have tons of fun playing games such as Dinosaur Feet Relay Race, Dinosaur Stomp, and Dinosaur Egg Relay Race. The campers will have dinosaur eggs that they can make hatch! We will also be exploring our second site, digging through bowls filled with rice. Our jam packed day will also include some crafts and real genuine dinosaur snot!

Wednesday: Dino of the Day is the Stegosaurus Today we will explore the stegosaurus. After campers add the stegosaurus to their dinosaur books, they will head to today's site, the sandboxes, where they will dig and excavate all of the dinosaur skeletons. Campers will make their own stegosaurus hat and learn all about carnivores and herbivores. We have two exciting games planned for today, the Extinction Game and Stegosaurus Sally Says. The campers will end their morning with a camp favorite, a dinosaur ceramic extraction.

Thursday: Dino of the Day is the Pteranodon We will have so much fun getting our hands dirty today! Campers will finish making their own fossil that we started on Monday. After we add the pteranodon to our dinosaur books, we will gather up some gardening tools and head outside to dig and excavate from a site that has never been explored before. Let's get our hands dirty!

Friday: Dinosaur Fun in the Sun Day The campers will get to explore our giant volcano and watch as they each take a turn to make it erupt. We will take on our biggest challenge yet as we try to excavate from a frozen site. Then, what better way to end the day than warming up in the sun and playing on the inflatable water slides? Be sure to bring your swimsuit, towel, and apply sunscreen today!
