

Stars & Stripes Harry Potter 2017 Camp Spotlight

June 26-30, 2017

8:30-12:00pm

Aug. 21-25, 2017

1:00-4:30pm

(Ages 6-12 yrs.)

Day \$33 Week \$134

Your acceptance letter has FINALLY arrived!!! Pack your trunk and prepare yourself for a jam-packed week of fun at Hogwarts School of Witchcraft and Wizardry. We will help you acquire all of the required materials you will need to make this week the best one yet! The week will start off just like every school year at Hogwarts--campers will be sorted into houses and have the chance to earn house points throughout the week. They will also be "chosen" by their wands. Campers will attend classes in Herbology, Potions, Defense Against the Dark Arts, Care of Magical Creatures and Divination. A trip to Honeydukes Candy Shop, where students will learn to make some delicious treats, is also planned. After all that, campers will spend a bit of time each day practicing Quidditch and preparing for the "end-of-the-year match" that will take place on Friday along with our water activities, so be sure to bring a bathing suit and towel.

Monday: Welcome to Hogwarts! Today we receive our acceptance letters to Hogwarts School of Witchcraft and Wizardry and prepare for the term ahead. After a quick trip to Ollivander's Wand Shop where our wands will "choose" us, we will all head to Platform 9 $\frac{3}{4}$ at Kings Cross Station and board the Hogwarts Express. Upon arrival we will put on our uniform, get sorted into houses, and sing the Hogwart's school song. Charms class is next, followed up with a lesson in Quidditch.

Tuesday: Herbology and Transfiguration Herbology is the study of both magical and muggle plants, so today we will be learning about the importance behind a few of these plants and herbs...including the Whomping Willow. In Transfiguration we will learn how to change the form and appearance of common objects. We will test ourselves by playing games in attempt to earn our house points.

Wednesday: Potions and Defense Against the Dark Arts The knowledge of Herbology will take us right into our Potions work—many of the ingredients are used in BOTH areas. We will even be creating potions that are edible!! What's a year at Hogwarts without dueling? The campers will be learning the basic rules of dueling along with useful spells that are used in DADA.

Thursday: The Care of Magical Creatures & Divination We will begin with a magical creature hunt where each animal found will earn points for their house. Students will spend time creating a magical creature they can take home as a pet. Crystal balls and tea leaves will be next as we practice looking into the future. A quick trip to Hogsmeade for some yummy treats will also be in store as well.

Friday: Horcrux and Hallows Hunt & Quidditch Cup You know who" has gone to great lengths to make himself immortal and it is up to us to end his reign. We will search out and destroy all of his horcuxes and, along the way, hope to find the Deathly Hallows as well. Once good prevails, it will be time to put all of our hard Quidditch practice to good use in our "end of the year" match. We will reward ourselves with splashing around and fun in the sun, so don't forget your bathing suit and towel!
