

# Stars & Stripes Up in Space Preschool Camp 2017 Camp Spotlight

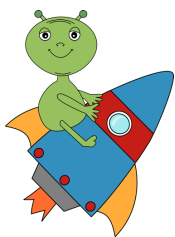

Aug. 14-18, 2017 8:30-12:00pm

(Ages 3-5 yrs.)

Day \$33 Week \$106

5-4-3-2-1- Blast off! Let your little astronaut explore space with us this week. Fun books will be used to teach your child about planets, stars, the moon, and more! They will explore space play dough, "moon sand," and make their own alien goo and space slime! Each day will be filled with fun games, crafts, and activities that help us explore outer space. We will make alien hats, paint moon and earth projects with a twist, learn space words in sign language, and more! Get ready for a week that is out of this world!

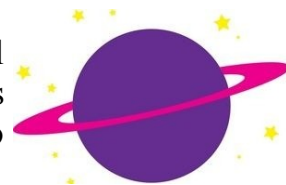

**Monday: Aliens** Welcome to Up in Space Preschool Camp, astronauts! We will begin our camp by using our awesome imaginations to talk about aliens! After reading *Aliens Love Underpants*, we will explore a silly part of space exploration. We will get our hands messy making our very own green alien goo and using play dough with googly eyes and other silly materials to make pretend aliens. Look for your very own alien to return home after we make hilarious and adorable alien hats.

**Tuesday: The Moon** Today we will put on our imagination caps and travel to the moon! What does it look like? Why do people "fly" on the moon? Can we all move there? We will read *Berenstain Bears on the Moon* and learn all of the answers to these questions! We will create our very own moons, by exploring bubble wrap and seeing how it can look like the surface of the moon. All we need is a little paint and craters to top it off! We will also make our own "space rocks" and play games with them. Hopefully we make it home at the end of the day!

**Wednesday: Earth/Planets** Today we will learn about the part of space where we live: earth! We will also read *There's No Place Like Space* and talk about all of the other planets, too. Campers will use shaving cream and paint to make unique earth creations, and form our own constellations on paper. We will also make our very own space play dough together... and of course get messy playing with it!

**Thursday: More Outer Space** Another exciting day of outer space exploration will begin with reading two short stories: *Moon!* & *Stars!* Campers will make unique planets using watercolors and coffee filters to create their own sticky space slime. We will also play games, like space BINGO.

**Friday: Rocket Ships** Get ready for a super fun day filled with rocket ships and water fun! Today we will start by reading *Zoom, Rocket, Zoom*. Then, we will make rocket ships using the letters from our names and explore "moon sand" in the sensory bin. Today is water day so come prepared by bringing your swimsuit, a towel and apply sunscreen! It's going to be a blast!
